AIRWORTHINESS DIRECTIVE

ACAA-DFS-AD-No.007

Issue: 01, Revision 00

Date: 12.07.2024

Approved by

Maksim Et'hemaj

Executive Director of Albanian Civil Aviation Authority

### 0.1 Record of Amendments

The table below describes the dates and reason for the different amendments of the current procedure. A vertical black line on the left-hand side of the page identify the changes with the previous version.

Issue No.	Revision No.	Date	Amended by	Reason
01	00	12.07.2024	SAW	Initial Issue

### 0.2 Revision table

Page #	Issue No.	Revision No.	Date	Edited by

**1. Name of the AD:**

EASA AD No.: 2024-0047, ATA 05 – Time Limits / Maintenance Checks – Airworthiness Limitations  
Section Part 5 – Fuel Airworthiness Limitations – Amendment

**2. Full Description of the AD:**

The airworthiness limitations applicable to fuel airworthiness limitation items for the Airbus A320 family aeroplanes are currently defined and published in the Airbus A318/A319/A320/A321 ALS Part 5 document. These instructions are mandatory for continued airworthiness. Failure to accomplish these instructions could result in an unsafe condition. EASA previously issued AD 2018-0231 to require actions as specified in Airbus A318/A319/A320/A321 ALS Part 5 Revision 05. Since then, Airbus published a new ALS to introduce new and/or more restrictive tasks and limitations, and new A320 family models were certified and added to the applicability.

This AD supersedes EASA AD 2018-0231, expands the applicability, and requires the accomplishment of the actions specified in the ALS

**3. Issued and Effective Dates:**

Issued: 19 February 2024

Effective: 04 March 2024

**4. Full List of Aircraft Affected:**

Airbus A318-111, A318-112, A318-121, A318-122

A319-111, A319-112, A319-113, A319-114, A319-115, A319-131, A319-132, A319-133, A319-151N, A319-153N, A319-171N

A320-211, A320-212, A320-214, A320-215, A320-216, A320-231, A320-232, A320-233, A320-251N, A320-252N, A320-253N, A320-271N, A320-272N, A320-273N

A321-111, A321-112, A321-131, A321-211, A321-212, A321-213, A321-231, A321-232, A321-251N, A321-251NX, A321-252N, A321-252NX, A321-253N, A321-253NX, A321-271N, A321-271NX, A321-272N, A321-272NX

All manufacturer serial numbers

**5. Description of How It Can Be Resolved:**

Maintenance Tasks and Replacement of Life Limited Parts:

Replace each component before exceeding the applicable life limit.

Accomplish all applicable maintenance tasks within the thresholds and intervals specified in the ALS.

Corrective Actions:

In case of discrepancies during the accomplishment of any task, corrective actions must be taken before the next flight in accordance with Airbus maintenance documentation.

AMP Revision:

Within 12 months after the effective date of this AD, revise the Aircraft Maintenance Programme (AMP) by incorporating the limitations, tasks, and associated thresholds and intervals described in the ALS.

Credit:

If the AMP has been revised to incorporate the maintenance tasks and life limitations as specified in a previous revision of ALS Part 5 before the effective date of this AD, it ensures the continued accomplishment of those tasks and limitations.

Recording AD Compliance:

When the AMP of an aircraft has been revised as required, it ensures continued accomplishment of the tasks for that aircraft. After revising the AMP, it is not necessary to record the accomplishment of individual actions for demonstration of AD compliance on a continued basis.
